

## CSK series One-Way clutch bearings

Our range of CSK series one way clutch bearings consists of a standard bearing with special snap block and cage. The CSK model freewheels can be used in backstop, overrunning or indexing applications and are generally used in hydraulic machinery, washing machines, elevators, conveyors, spinning reels, printing and textile machines etc.

All 'open' sizes are available with or without keyways  
All 2RS sizes only available on factory delivery
